

# Healing Bodies, Changing Lives, Empowering Communities

2008 DONORS & VOLUNTEERS

## Thank You

For nearly four decades, Interplast has been a pioneer—bringing reconstructive surgery to those with little or no access to care. The lasting change we have made in the lives of poor children and adults living with clefts, disabling burns and hand injuries has been made possible through the partnership we have with you, our donors and volunteers. Thanks to your support and involvement, Interplast has radically improved the lives of more than 75,000 impoverished children and adults.

Your generous giving allows us to constantly identify new ways to best deliver quality reconstructive surgical care to impoverished people around the world. Nowhere has that been more evident than in our evolution from a service model to an empowerment model. This past year, we were able to deliver care to 48 percent more children and adults than the year before—largely due to the increased surgical capacity realized by the addition of new Surgical Outreach Centers. By training and supporting our partner physicians in the poorest regions of the world, we're profoundly changing the lives of more children than ever before.

Your gift is truly helping to transform lives—and restore the dreams of thousands each year. Thank you for helping make those dreams come true.

# Interplast Donors FY 2007-2008

The individuals and organizations listed below provide the financial support Interplast needs to carry out its programs. Combined with the dedication of Interplast's volunteers and medical partners, our donors helped provide more than 6,300 life-changing surgeries during the 2007-2008 fiscal year.

As partners in Interplast's efforts to change lives, you have helped ensure that Interplast educators trained 450 local medical personnel in specialized procedures. Your generous gifts also supported 12 Surgical Outreach Centers in nine countries as part of our ongoing—and successful—efforts to empower local communities. Our in-country medical partners performed 76 percent of all the Interplast surgical procedures performed last year. We extend our deepest thanks to you, our supporters, for your continued generosity.

**Long-term Partners**

There are a number of organizations that have been dedicated to helping Interplast achieve its goals for more than two decades. These partners have helped light the way—by providing the kind of support that allows us to carry out our mission. They have responded enthusiastically to our evolving model, and have embraced our goal to empower local communities. They have, quite simply, helped make everything possible. This year, we would like to send our heartfelt thanks to the following foundations for their significant long-term contributions: **Danellie Foundation, Grousbeck Family Foundation, Doug Lamon, May & Stanley Smith Charitable Trust, Sand Hill Foundation, Tosa Foundation and The T & T Family Foundation.** Their support has helped tens of thousands of children realize their dreams of a brighter future.

## Syde Hurdus Charitable Foundation

The Syde Hurdus Charitable Foundation brought life-changing medical services to approximately 1,200 patients over the past year alone—most of them children in desperate need of help. The foundation helped to support surgeries in Nepal, India and Ecuador, as well as speech therapy camps in Nepal. The foundation also contributed generously to Interplast's medical education and empowerment programs, helping to create year-round access to medical care in developing countries. In the past year, the foundation fully funded training for surgeons in maxillofacial surgery in Nepal, as well as orthodontic cleft care in both Nepal and Ecuador. The foundation also provided partial funding for various fellowships designed to further support training efforts for local Surgical Outreach Center surgeons. The New York-based Syde Hurdus Charitable Foundation was created from the estate of Ms. Syde Hurdus, a well-known clothing designer who cared deeply for the welfare of children around the world. Interplast is deeply grateful for its long-time support.

## GALA HONOREES

Three honorees were selected last year to be featured at Interplast's first Gala—taking place at the Ritz-Carlton in San Francisco on November 8, 2008. These recipients and organizations will be honored for their significant and long-time support of Interplast. They include:

### McKesson Corporation

**McKESSON** John Hammergren, Chairman  
*Empowering Healthcare* and CEO of McKesson

Corporation, will be honored with the William C. Lazier Leadership Award in recognition of McKesson's critical role in empowering Interplast to improve healthcare in the developing world.

### Ronald McDonald House Charities

Martin J. Coyne, President and CEO of Ronald McDonald House Charities (RMHC), will accept the Partners in Progress Award. This award recognizes the dedication and support of one of Interplast's leading nonprofit partners. Over the past decade, RMHC has granted more than \$4.5 million, providing more than 10,000 children with healing and hope. Last year's grant alone, entitled Empowering Communities, provided life-changing surgery for nearly 1,700 children in 10 developing countries. RMHC understands that many impoverished children around the world do not have access to basic medical care, let alone the reconstructive surgery they need to lead normal, productive lives. Accordingly, RMHC generously renewed its partnership with Interplast with a new grant entitled Restoring Dreams—Increasing Access to Care, which will focus on improving healthcare access to children in need in developing countries. It is estimated the partnership will touch the lives of more than 2,000 children in 2008–2009.

### Dr. Shankar Man Rai, Interplast Surgical Outreach Center,

Nepal—Dr. Rai is a world-renowned expert in repairing clefts and burn contractures. He will be honored with the Donald R. Laub Humanitarian Award for his outstanding work as a plastic surgeon for the poor, helping thousands of children in need. Dr. Rai has performed nearly 7,500 free surgeries for impoverished children, and in 2004, was the first doctor from a developing country to be honored by the American Medical Association with its Nathan R. Davis Award in International Medicine and Public Health.

Interplast is greatly appreciative of the dedication and support from these three partners. Each has played a significant role in Interplast's success as an organization. Together, we will continue to create a healthier world—one child at a time.

# Corporate Partners

Interplast is deeply grateful to the following corporations, businesses and partner organizations for their outstanding corporate citizenship and involvement in the community. Their generosity has helped to change the lives of thousands of children in need.

Arlene Kaplan, Independent Travel Agent	Google Matching Gifts Program	New York Junior Tennis League
AmeriCares	Hy-Tape International	Oliver McCrum Wines
Bacchus Management	Idaho Pacific Lumber Co., Inc.	Paul, Hastings, Janofsky & Walker, LLP
B. Braun Medical, Inc.	Johnson & Johnson Family of Companies	Phil Borges, Photographer
Berkeley East Convalescent Hospital	Joyce Small, Independent Travel Agent	Proctor & Gamble
BioMed Sciences	King Systems Corp.	Sutter Health
Covidien	McNeil Consumer & Specialty Pharmaceuticals	Tyco Healthcare / ValleyLab
Ethicon, Inc.	Montana Plastic Surgery Center	John Urban, Photographer
		Wells Fargo

## Johnson & Johnson Family of Companies

Interplast is grateful to the Johnson & Johnson Family of Companies for their continuing support. This year, the Johnson & Johnson Family of Companies provided Interplast with both unrestricted monetary funding, as well as thousands of dollars worth of medical supplies and equipment—which means that more of our precious financial resources can be dedicated to providing life-changing surgeries for children in need.

## Volunteers 2007-2008

During the 2007–2008 fiscal year, 200 volunteers donated their time and their resources to help Interplast provide free reconstructive surgeries to children and adults with clefts, disabling burns and hand injuries. Working together with our overseas medical partners, they performed surgeries, taught specialized surgical techniques, translated and provided post-operative comfort and care to patients in 11 countries: Bangladesh, Bolivia, China, Ecuador, Ghana, India, Nicaragua, Mali, Peru, Vietnam and Zambia.

These dedicated men and women are vital to Interplast's mission, whether they volunteer to staff a two-week surgical team trip\*, teach a week-long Visiting Educator Workshop or engage in continuing consultation with our Surgical Outreach Center directors. They give of their vacation time and spend time away from family to provide and build greater access to reconstructive surgical care among the world's impoverished children and families. We are indebted to our remarkable volunteers. Thank you.

*\* Each surgical trip volunteer contributes \$325 to help with the costs of conducting Interplast programs overseas. All surgeries are provided free of charge to our patients.*

## The Smile Train

Since 1999, The Smile Train has been a valued partner of Interplast, supporting its efforts to establish and to expand year-round Interplast Surgical Outreach Centers, creating long-term surgical care where it never existed before. Because of The Smile Train partnership, nearly 14,000 children have received surgeries they need at eight of Interplast's Surgical Outreach Centers in Bangladesh, Ecuador, Ghana, Nepal, Nicaragua, Peru (2) and Zambia. The Smile Train two-year grant toward surgical team trips supported 727 surgeries in China, Ecuador, Ethiopia, India, Mali, Peru and Vietnam. Interplast sincerely appreciates The Smile Train's continuing support.

Interplast—the first humanitarian organization to provide free reconstructive surgery for children with clefts, disabling burns and hand injuries—has provided nearly 75,000 life-changing surgeries for those who have no other access to care. Working in underserved regions of 16 countries throughout Africa, Asia and Latin America, Interplast teaches, empowers and partners with volunteers and overseas medical professionals so every child living in poverty has free access to the safest and highest-quality care—now and in the future. Interplast is committed to transforming as many lives as possible, allocating nearly 90 percent of its budget to medical programs.
